high pressure cleaners

Designed to provide ample power for the toughest of cleaning tasks, the EDGE V200MD can provide hot or cold high pressure water as well as steam up to 130C if required.

With electric start for the diesel engine only a water supply is needed to allow a quick and easy set-up.

With cleaning pressures to 200 Bar and flow rate up to 15 litres/minute the V200MD is capable of meeting any requirement. This machine is very popular with Councils and Local Authorities.

Applications also include: Agriculture, Construction, Plant hire.

Useful accessories are available such as a rotor wash floor tool for cleaning larger floor areas and the EDGE gum blaster tool for chewing gum removal.

- Can be used with pressured mains water
- Convenience - Easy to use controls can be easily converted to suck from an external water tank
- Engine speed proportional to pressure
- Reliable well proven power and pump unit
- High pressure pump features ceramic pistons
- Adjustable flow and pressure
- Low engine fuel and oil safety
- Strong Wheeled chassis for manoeuvrability

V200 MD

| | V 200 MD |
|-----------------------------------|----------------------------|
| Code | 303 |
| operat. pressure | 200 bar |
| operat. pressure | 2940 psi |
| delivery rate | 15 l/min |
| engine | 21 hp Aircooled |
| engine type | Twin cylinder diesel power |
| burner fuel consumption at 130° C | 8 l/h |
| diesel engine fuel consumption | 3.7 l/h |
| max temp. inlet/outlet | 130 °C |
| engine electrics | 12 V DC |
| machine dimensions | 130x86x94cm |
| machine weight | 380 Kg / 836 lbs |
